ARM Linux mail list

linux-arm-kernel -

About linux-arm-kernel

English (USA)

To see the collection of prior postings to the list, visit the [linux-arm-kernel Archives](#).

Using linux-arm-kernel

To post a message to all the list members, send email to linux-arm-kernel@lists.infradead.org.

You can subscribe to the list, or change your existing subscription, in the sections below.

Subscribing to linux-arm-kernel

Subscribe to linux-arm-kernel by filling out the following form. You will be sent email requesting confirmation, to prevent others from gratuitously subscribing you. This is a private list, whi means that the list of members is not available to non-members.

Your email address:

Your name (optional):

You may enter a privacy password below. This provides only mild security but should prevent others from messing with your subscription. **Do not use a valuable password** as it will occasionally be emailed back to you in cleartext.

If you choose not to enter a password, one will be automatically generated for you, and it will be sent to you once you've confirmed your subscription. You can always request a mail-back of your password when you edit your personal options. Once a month, your password will be emailed to you as a reminder.

Pick a password:

Reenter password to confirm:

Which language do you prefer to display your messages? English (USA)

Would you like to receive list mail batched in a daily digest? No Yes

linux-arm-kernel Subscribers

How to use mail lists

- ❑ Pure Text: LKML and others hosted on vger.kernel.org that see html messages as a signature of spam.
- ❑ Don't top post

How to config “git send-email”

```
[user]
  name = Barry Song
  email = 21cnbao@gmail.com
[core]
  editor = vim
[color]
  ui = auto
[sendemail]
  smtpserver = smtp.gmail.com
  smtpserverport = 587
  smtpencryption = tls
  smtpuser = 21cnbao@gmail.com
```
